

James Madison University Advising Notes for Business

Note: If you are a former JMU student, restrictions apply to the transferability of some of the courses listed below. Please consult with a JMU transfer advisor before enrolling in any business classes at BRCC.

The JMU College of Business offers the following BBA programs: Accounting, Computer Information Systems, Economics, Finance, International Business, Management, and Marketing.

Direct Admission into the College of Business

Students can be admitted into the junior year level of coursework by meeting the following criteria:

- Admission to JMU
- 3.0 cumulative GPA at all colleges attended
- Completion of the following courses with grades indicated:
 - ACC 211 (grade of B or better)
 - ACC 212 (grade of C or better)
 - MTH 261 (grade of C or better)
 - BUS 224 (grade of B or better)
 - BUS 227 (grade of B or better; prerequisites are MTH 261 and BUS 224)
 - BUS 270 (grade of B or better)
 - ECO 201 (grade of B or better)
 - ECO 202 (grade of B or better)
 - ITE 120 (grade of B or better; note that ITE 140 may not be substituted for ITE 120)*

Successful completion of the above criteria will allow students to enroll directly into COB 300 and finish the BBA in two years. Students who elect to transfer without completing all the above courses will need to take the remaining prerequisites at JMU and achieve a GPA of 2.7 (B- average) among them (excluding calculus and managerial accounting). It will generally take longer than two years to complete the BBA in this case.

*ITE 120 transfers as COB 204 **only** from BRCC, LRCC and PVCC. Students at Nova and Southside VA CC may take ITE 100. Students at other community colleges who wish to transfer directly into the College of Business may take either course but only from these specific colleges.

The College of Business also offers a BA and BS in Economics, and a BS in Quantitative Finance. BBA admission standards do not apply to these programs.

Differential tuition for College of Business majors/minors: Students will be charged an additional \$50 per credit for all COB courses (with the exception of ECON 200). Click [here](#) for more information.
